Suzuki Speed Cams

Suzuki (SLDA) Speed Cam Instructions

1. Turn on the ignition and insert the USB stick in the system in your car. The system will recognise the speed camera files automatically.
2. Select "Download" and wait for the files to transfer. Confirm by tapping the ✓ icon.
3. To turn the audible alert on go the Nav POI Settings menu and select "On and Beep".
4. You can now remove the USB stick.
